**MEMORANDUM FOR:** Director of Personnel

**ATTENTION :** Chief, Position Management and Compensation Division

**THROUGH :** Deputy Director for Science and Technology

**SUBJECT :** Foreign Missile and Space Analysis Center Staffing Complement

1. Forwarded herewith is the proposed Table of Organization for the Foreign Missile and Space Analysis Center (FMSAC) which reflects the OPPB authorized personnel ceiling of [REDACTED]

2. The FY-69 upper-grade allocation authorized an increase of one GS-15 and one GS-14. The FMSAC average grade increase is attributable, in part, to this upper-grade authorization, but more importantly, to the reduction of four positions from our FY-68 personnel ceiling of [REDACTED]

3. One of the more significant changes from previous submissions is the formal establishment of various components within FMSAC. These components, have, for the most part, existed for some time with the exception of the ADP Staff. We have also eliminated the Non-Soviet and Naval Branch by incorporating the positions into the Facilities and Range Analysis Branches. These changes more readily identify our positions with the specific missions and functions of their respective divisions and staff. Job descriptions have been prepared for the ADP Staff.
